Circular floor lamp

Design by Nicolò Zavagno & irregolare

La combinazione dei due materiali, metallo verniciato e legno massello lavorato a mano, rende questa lampada elegante e senza tempo. Perfetta per la sala da pranzo, Circular illumina lo spazio con la sua luce calda e diffusa. La scelta dei colori, nero, bianco o bronzo, la rende adatta a diversi stili di arredo, dal minimal total white ad uno stile dal carattere più forte.

The combination of two materials, varnished metal and hand styled solid wood, gives this lamp an elegant and timeless look.

Circular is perfect for dining room lighting above the table with its warm and diffused light.

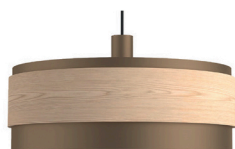

The choice of colours, white, black or bronze, make this lamp adaptable to different furnishing; from a total white minimal style to stronger decorative choices.
