Vortex chandelier

Design by Nicolò Zavagno & irregolare

Vortex si ispira ai vortici che si formano sulla superficie dell'acqua. L'intreccio in ottone rende preziosa e originale questa lampada a sospensione.

Ogni pezzo è unico, realizzato interamente a mano.

Vortex takes inspiration from the vortexes formed on the surface of the water.

The brass weave makes this suspension lamp precious and original. Each piece is unique, made entirely by hand.
